This "extra lite" take on the rogue-like genre is probably not worthwhile for most gamers. Thankfully, the game doesn't take itself seriously, and I think my favorite part of the game experience was laughing at the goofy dialogue and achievement text. The gameplay itself is extremely repetitive, and the RNG aspects of level progression make it feel very unrewarding to grind your way from one level to the next, with no sense of ramp-up or actual progress. The total dependence on RNG for achievement hunting made me stick around longer than I actually wanted to, searching for that last hat. The game has only one track of BGM, adding to the sense of endless repetition.

I bought the game for \$0.29 as part of a discounted bundle, but I probably wouldn't purchase it on its own, even at a discounted price.. not a bad game, have some issues but if you have the 90% coupon discount it's worth for the card drops but ,otherwise, i don't think it is. slow and boring arena shooter. not a bad game, have some issues but if you have the 90% coupon discount it's worth for the card drops but ,otherwise, i don't think it is. This "extra lite" take on the rogue-like genre is probably not worthwhile for most gamers. I bought the game for \$0.29 as part of a discounted bundle, but I probably wouldn't purchase it on its own, even at a discounted price.. I don't know where people get the idea that they should write a bad review about this game. I find it fun and highly addictive. Yes it is random every time you play, but that's the whole point of where the fun is. If it were the same every time it would be very boring, requiring no skill at all. I would rate this 9/10.. I got this game with a 90% off coupon and paid 10 cents for it. But it actually is pretty fun. But after a hour of playing it will probably get boring though.

6/10. I just got dark souls and this game is harder. Why waste \$59.99 on dark souls 3 when you can get this game on sale for \$0.49. Honestly that is a great deal, the game should actually be worth at least \$59.99.

dle Master Super LOHH. Super LOH is a rather difficult rogue like game for the wrong reasons.

Basically, the goal of this game is to clear out all the enemies in a room and then advance to the next room. However, the difficulties of the rooms are random, and sometimes you get these ridiculously hard rooms that are just impossible. I also say rogue like, but you don't get to keep your upgrades from playthrough to playthrough. Additionally, when you attack, you get pushed back which is super annoying. I played enough of this game that I was actually able to 100% achievement the game, but I would not play this anymore or any further. Another rather annoying part is that the escape button does not bring up a menu, but instead closes the game.

Overall, not that great of a game because of random difficulty swings that make the game annoyingly hard.

Rating: 5.3/10

Recommend Price: \$0.49 or below. typical russian game D:. My first impression was horrible. It seemed impossible to clear a level. But I wanted the achievements, so I kept trying. Eventually, I got behind the patterns of the monsters and made it to level 7 and killing 92 monsters. I am quite proud of that. R-Type seemed impossible as well. Or Ghouls'n'Goblins. But did I give up? Yes, like every sane person did. I kept on playing Super LOH for a bit even after I got all the achievements. The song is catchy. Also positive: The game is only 7 MB small. Could always install it again quickly for a game, should I ever feel like it.. lovely level and character design

- + the soundtrack is nice, but repeats quite fast
- + great variety of levels, but the difficulty is inconsistent (you should buy a better weapon fast)
- + easy achievements
- all enemies are braindead, just running around aimlessly
- no menu or settings, and escape key instantly exists the game

Overall, a decent roguelike with lots of potential for further development. The price of 0,99€ is fair. Well, this game isn't actually a 'complete' game. Could be better if the developer actually finish it.. Super LOH

Super LOH. You run around and shoot monsters.

The game levels are random.

Sometimes you start on really hard levels, others really easy, to get a streak you kind of just have to get lucky and not get the super hard levels. Some of the levels are nearly impossible to beat, which makes the game a bit unfair.

I got all the achievements in it in about an hour.

6/10 Spooky
